

Deloitte provides audit, consulting, tax, legal and financial advisory services to public and private clients spanning multiple industries. In 150 countries Deloitte brings world-class capabilities and deep local expertise to help clients succeed wherever they operate.

Deloitte professionals are unified by a collaborative culture that fosters integrity, outstanding value to markets and clients, commitment to each other and strength from diversity. They enjoy an environment of continuous learning, challenging experiences, and enriching career opportunities. Deloitte's professionals are dedicated to strengthening corporate responsibility, building public trust, and making a positive impact in their communities.

To enable us to support our significant growth, our office in Tirana is currently looking for candidates for the position of:

## **ABAP Developer (SAP)**

### **Your Role as ABAP Developer (SAP)**

The ABAP Developer is responsible for technical analysis, design, code and testing of components of SAP. The ABAP Developer is involved in maintenance, enhancement and/or development work of SAP modules and those that interface with other applications. The ABAP Developer has a range of skills and knowledge of the technologies used and applications supported by Client Service Teams. The ABAP Developer may be required to participate in pager/on-call support.

Our client base includes major Italian companies with high reliance on IT from different industries including Banks and Financial institutions, Telecom, Media and Technology companies, Retail, Manufacturing and Resources.

### **The successful candidates should meet the following requirements:**

- Higher education in Information Technology, Computer Science, Applied Mathematics, Economics Engineering or Economics Informatics
- Experience with SAPScript, SmartForms, Adobe Forms, Web Dynpro
- ABAP development expertise of at least 3+ years, including interface development using BADIs, BAPIs, RFC calls, enhancements, function modules, classes and methods, workflow and ALE/IDOCs, is considered an advantage
- Strong experience in the core Finance SAP ERP functional modules
- Strong technical and functional design skills as well as experience with creating repeatable processes and code base that will support future growth with minimal customization requirements
- Experience with developing interfaces between SAP and non-SAP systems/applications

- Development experience with Java, Web services, and Web Portal desirable
- Willingness to travel extensively abroad, especially in Italy and other European countries, when required;
- Strong team players with good communication skills, as well as a confident and professional demeanor when dealing with clients and colleagues;
- Mandatory: Fluent Italian and English - written and spoken;
- Nice to have: German – written and spoken

#### **Your development:**

At Deloitte, our professional development focuses on helping people at every level of their career to identify and use their strengths to do their best work every day. From entry-level employees to senior leaders, we believe there's always room to learn. From on-the-job learning experiences to formal development programs our professionals have a variety of opportunities to continue to grow throughout their career. This position provides the following opportunities:

- ABAP language training
- SAP DB training
