

PROFESSIONAL MASTER IN “PRIMARY SCHOOL TEACHING”

LEARNING OUTCOMES

By the end of the study programme the students will be able to:

- reflect critically on the ways in which educational theory and research informs teaching practice
- demonstrate strong subject and pedagogical content knowledge to create productive learning environments that empower learners
- interpret, design and implement relevant curriculum and pedagogy, integrating digital technologies and differentiating teaching to engage all students in their learning
- design assessment tools and tasks and interpret data and evidence to make sound clinical judgments about teaching interventions and reflect on the impact of teaching on learning outcomes
- utilise interventionist teaching practices that promote participation and inclusion to meet the needs of diverse learners
- demonstrate a high level of 21st century skills and be able to develop these skills in students
- establish and maintain ethical and respectful relationships with students, colleagues and parents, working independently and collaboratively across the school community
- demonstrate continuous professional learning through teacher practitioner inquiry and research.
