

MASTER OF SCIENCE IN “PRIVATE AND BUSINESS LAW”

LEARNING OUTCOMES

Upon successful completion of the study program students will be able to:

- Think critically, strategically and creatively, including an ability to identify and articulate complex legal issues.
- Synthesize critical thinking and advanced analytical skills to develop creative solutions that address strategic legal issues in complex contexts.
- Communicate accurately and appropriately with multidisciplinary audiences in a range of specialized formats.
- Evaluate and apply principles of ethics, sustainability, social responsibility, and Indigenous values, to decision-making related to legal issues.
- Demonstrate specialized legal and technical knowledge of private and business laws relating to international legal framework.
- Acquire a specialized understanding of a complex body of legal knowledge in relation to international private, business and commercial law.

PROFILE: BUSINESS LAW

- Address strategic business issues in complex contexts and develop creative solutions through critical thinking and advanced analytical skills.
- Demonstrate advanced skills in professional business practice by researching and analysing information and concepts to support business decisions in national, regional, and international contexts.

PROFILE: PRIVATE LAW

- Respectfully inform, analyse, report, and persuade clients in the area of private law.
- Synthesise and articulate complex legal and technical issues and identify legal gaps in private law issues.
