

Tender Announcement (date 18/09/2023)

European University of Tirana - Purchasing of software and laboratory equipment, installation and activation

Publication reference: **101081724 — SmartWB — ERASMUS-EDU-2022-CBHE**

The European University of Tirana extends an invitation to eligible suppliers to present their proposals for the supply, installation, and activation of software and laboratory equipment.

Scope of the Contract:

1. Supply of professional tools essential for laboratory and field exercises.
2. Installation and activation of the procured tools within a designated laboratory at the European University of Tirana.

Objective:

The procurement aims to equip the university laboratory with state-of-the-art tools and software to foster hands-on learning experiences, bridging the gap between theoretical and practical knowledge in CSUD.

This contract consists of purchase:

Item no	Specifications Required	Unit	Quantity
1	Thermohygrometer	Piece	2
2	Temperature Probe for U-Value Measurement, 3 Sensors	Piece	2
3	Humidity/temperature probes	Piece	1
4	Protective case for equipment	Piece	1
5	Testo 417 - Vane Anemometer (Set 1)	Piece	2
6	Pocket-sized thermal anemometer	Piece	1
7	Testo 465 - Non Contact Tachometer	Piece	2
8	Smoke Pencil Pro Field Kit with Case	Piece	2
9	Software to process images to produce 3D spatial data	Piece	1
10	MATLAB	Piece	1
11	Plagiarism check	Piece	2

Tendering Instructions:

1. Detailed specifications and quantities will be provided in the Tender Document.
2. Bidders must ensure that their bids are comprehensive, clearly indicating the specifications and costs.
3. All bids should be submitted by 20/10/2023 to the designated office or through the specified online portal.
4. Late submissions will not be considered.
5. For further inquiries and access to the Tender Document, kindly contact ketrina.cabiri@uet.edu.al

European University of Tirana in Albania will carry out public procurement processes to purchase laboratory equipment and software. A designated laboratory in this university will be outfitted to facilitate the development of new exercises in CSUD. We will procure professional tools essential for laboratory and field exercises, which will then be set up and activated at the European University of Tirana. Additionally, modeling software will be acquired to efficiently simulate practical problems. The primary objective behind this equipment procurement is to foster practical learning for students in the domain of CSUD.

This contract consists of purchase:
