

MASTER OF SCIENCE IN "BUSINESS ADMINISTRATION"

STUDY PROGRAMME OBJECTIVES

The Master of Science study program in "Business Administration" aims to equip the student with:

- Preparation of specialists with specific knowledge capable of managing and solving the
 problems faced by public institutions such as the Minister, or the director within them, the
 management of Municipalities and NGOs, etc.
- Equipping students with basic theoretical and practical knowledge to take responsibility for
 performing critical analyses and to be able to integrate complex activities in the work context
 with the aim of achieving the strategic performance of the organization.
- Preparation of specialists and at an expert level with outstanding competencies in the management of projects and investments, evaluation of their productive capacities in perspective.
- The ability of students to analyse the technical and economic-financial problems of projects and the qualities of human resources capable of being part of the management group.
- Preparing students for a career with a more specialized direction in the "Business-marketing" fields, with specific knowledge about the operation of strategic markets.
- Equipping students with specialized skills for solving problems needed for research and/or innovation, to develop new knowledge and procedures of the marketing business.

LEARNING OUTCOMES

Students upon completion of the Study Program will be able to:

- Demonstrate expertise in practical skills and theoretical aspects applied in the field of public administration.
- To present outstanding professional competence in managing the activities of public institutions, municipalities, NGOs, etc. and human resources of these institutions.
- To demonstrate professional skills based on in-depth theoretical knowledge on the recognition, management, and evaluation of the productive capacities of projects.
- To get to know in detail the implementation of the rules, the ways of the function, and the analysis of the administration and management of the projects.
- Expansion and deepening of competencies in the fields of marketing and sales, strategic analysis of domestic and foreign markets.
- To evaluate the challenges faced by businesses in the market and to be able to develop sustainable strategies in marketing environments considering information technology.

SPECIALISATION: PUBLIC ADMINISTRATION

• To demonstrate expertise based on the acquisition of theoretical and practical knowledge in the field of public administration, policy making and implementation of governance policies at the local, national, and international level.

- To recognize and apply contemporary international and Albanian knowledge, in the field of public property management and its administration, through the operation of international organizations, national and non-profit organizations.
- Implementation and use of the main concepts in the field of public administration.

SPECIALISATION: PROJECT MANAGEMENT AND EVALUATION

- To demonstrate expertise due to the acquisition of deep theoretical and practical knowledge in the field of project management, administration, and evaluation.
- To be able to apply theoretical knowledge and contemporary international practice in the field of design, planning, organization, management, evaluation and reporting of investment projects in business and beyond.
- To identify and implement different indicators to evaluate the production and financial capacities
 of enterprises regardless of the field of activity.

SPECIALISATION: MARKETING MANAGEMENT

- To demonstrate expertise in theoretical aspects and especially in practical skills applicable in the field of markets, standards, marketing, advertising, and promotion etc.
- To know theoretically and apply in practice advertising, innovation in marketing.
- To be able to analyse operations in different national or international markets, to know the psychology of consumers, to identify and meet their needs.

JOB OPPORTUNITIES

Employment opportunities after graduation:

- 1. General administrator in public, private, non-profit organizations
